---

### Core Competencies

- Backend Engineering & Microservices Architecture
  - .NET Core, C#, RESTful APIs, Azure, MS SQL
  - CI/CD Implementation, DevOps, TFS, Git
  - Agile (Scrum), Test-Driven Development (TDD)
  - Technical Leadership & Stakeholder Communication
- 

### Technical Expertise

- **Languages & Frameworks:** C#, .NET Core, ASP.NET, .NET Framework
  - **Databases:** MS SQL Server, Azure SQL
  - **DevOps & Cloud:** Azure, Git, TFS, CI/CD Pipelines
  - **Tools:** Visual Studio, VS Code, Duckcreek Suite, Excel, Microsoft Teams
  - **Methodologies:** Agile, Scrum, TDD, MVC Architecture
- 

### Professional Experience

#### Senior Engineer Design and Development

Sept 2023 – Present | Bengaluru, India | Company: Siemens Healthineers

- Spearheaded design and development of 5+ core modules, achieving a 30% reduction in development cycle time and 20% fewer post-production defects.
- Enhanced CI/CD Night Run pipeline efficiency by 40%, decreasing build failures and improving deployment reliability.
- Architected modular solutions using MEF and MVC principles to boost scalability and maintainability.
- Led implementation of Given-When-Then IFT structure, cutting debugging efforts by approximately 40%.
- Collaborated with QA, DevOps, and cross-functional teams to ensure seamless integration across diagnostic platforms.

#### Application Development Senior Analyst

Jan 2023 – Aug 2023 | Mumbai, India | Company: Accenture

- Led end-to-end delivery of a .NET-based insurance platform handling 10K+ policies daily; improved claim resolution time by 30%.
- Achieved 98% unit test coverage, decreasing post-UAT defects by over 35%.
- Developed and deployed scalable APIs and Azure-integrated services for enhanced system responsiveness.
- Maintained comprehensive SDD documentation and ensured architectural alignment in regulated environments.
- Engaged with product owners and compliance stakeholders to align software features with strategic KPIs.

#### Application Development Analyst

Jan 2022 – Dec 2022 | Mumbai, India | Company: Accenture

- Delivered modular enhancements for the Duckcreek Accelerated Platform used by 3+ major insurance clients.
- Reduced policy issuance times by 25% through workflow optimization and backend performance tuning.
- Designed robust REST APIs and led refactoring initiatives to streamline legacy codebases.
- Diagnosed and resolved production incidents, ensuring high availability and business continuity.

#### Application Development Associate

Feb 2020 – Dec 2021 | Mumbai, India | Company: Accenture

- Engineered backend logic for enterprise systems, boosting platform availability by 15%.
  - Minimized defect rates by 10% through rigorous code reviews and systematic debugging.
  - Created functional and design documentation to support agile delivery processes.
  - Conducted technical walkthroughs and client demos, improving transparency and trust.
- 

### Education

#### Bachelor of Engineering – Electronics and Communication

Acropolis Institute of Technology and Research, RGTU – Bhopal | 2019

---

### Achievements

- Awarded **Spot Award** by Siemens Healthineers leadership in FY25 Q2.
- Recognized with **ACE Award** from leadership in FY21 Q4.
- Honored with **Integrity Award** from leadership in FY22 Q2.
